DIGITAL SIGNAGE PLAYERS

HMP400/400W

At the core of our digital signage solution lies the HMP400 Hyper Media Player. Engineered in Switzerland and made in Germany, HMP400 comes with 3 years of warranty, extendable to 5 years. It is the powerful hardware you need capable of reliably delivering 4K at 60 fps 24/7 for a decade.

Key features

- 4K | 60 fps ready

- Comes with DSOS™ by SpinetiX – digital signage operating system

- WiFi version available

- Power over Ethernet (PoE+)

- Intel® Atom® processor

- Fanless, compact and flat-form factor design

- Dust-resistant, designed for extreme conditions

- Passive heat dissipation

- All connectors lockable

- Designed for long life cycle and availability

- Rated for 10-year continuous operation with less than 1% failure

intel partner Gold IoT Solutions

With a shared commitment to digital signage and vision for the future, we joined forces with Intel® as part of the Intel Partner Alliance. With HMP400's Intel based architecture, we continue delivering the cutting-edge technology of the future today.

3 ACTIVATION LICENSES

HMP400/W **+** **3 activation licenses** **=** **More content features**
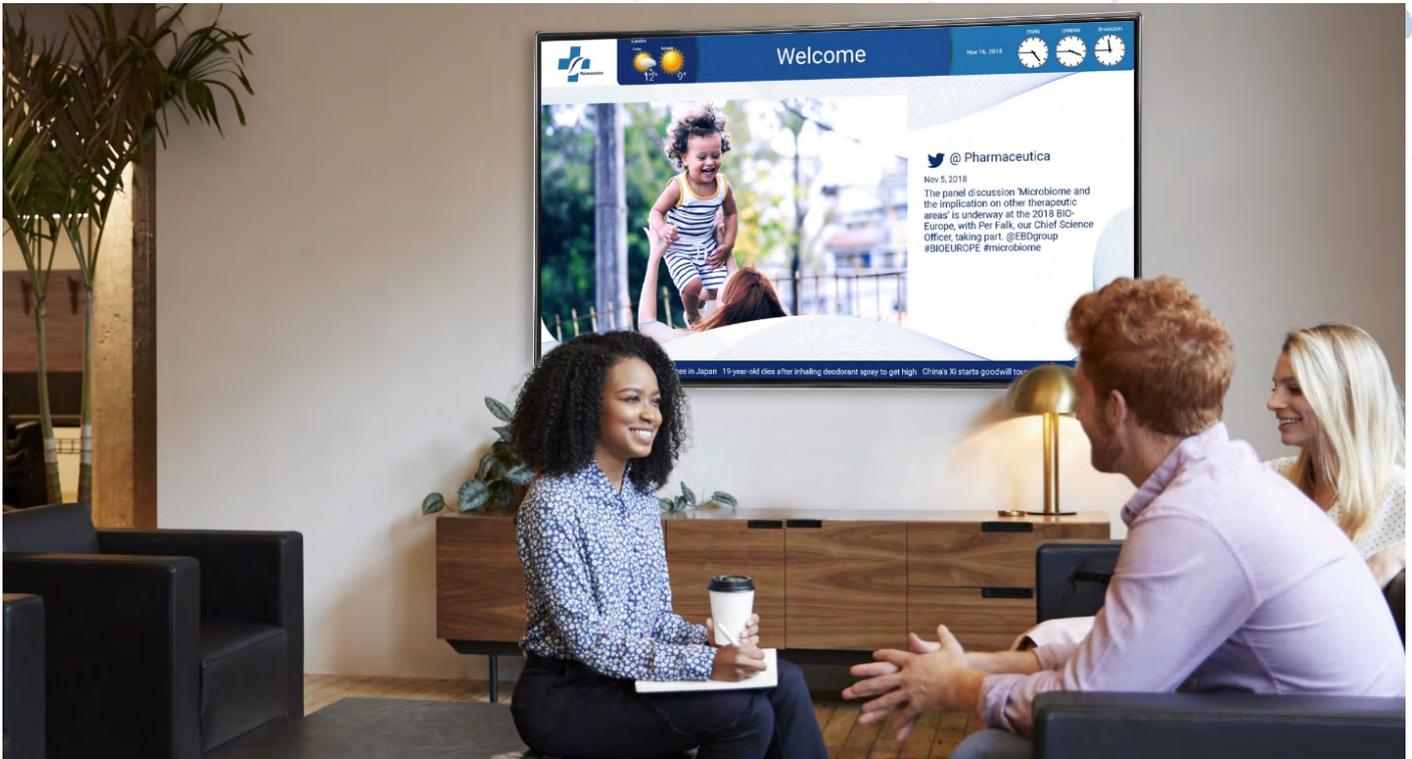

Unlock more Features

HMP400 keeps you covered as your business evolves. Together with its DSOS™ operating system, the player supports three progressive modes of use that build on top of each other called WIDGETS, KIOSK, and SYSTEMS.

Characteristics

- Possibility to activate right after you buy or later

- Flexibility to migrate your DSOS license from player to player

- A project can have a mix of diverse DSOS licenses

spinetix.com/HMP400

WIDGETS ACTIVATION LICENSE

Bring Your Story to Life With Your Data

In WIDGETS mode, you combine the power of HMP400 and the versatility of Elementi and its 250+ widgets. Fill any display with content that auto-updates using data from your everyday tools like G-Suite, or Microsoft Office 365. Widgets are easily customizable, simple, and powerful to deliver information.

Key features

Connect with enterprise cloud solutions

Office 365™
Google Workspace™

**Other Widgets designed for signage**

Weather, Financial data, Graphs, etc

Connect with other data sources

XML,
JSON feeds

spinetix.com/HMP400

KIOSK ACTIVATION LICENSE

Craft amazing interactive experiences with HTML5

The KIOSK mode builds on top of the WIDGETS mode and allows you to offer rich interactive content. Native support for HTML5 enables your team to craft captivating user experiences for any display.

Key features

Native support for HTML5	Touch-screen kiosks	Dashboards	Wayfinding Maps
Display web pages	Physical I/O, multi-touch support		

spinetix.com/HMP400

SYSTEMS ACTIVATION LICENSE

Harness the power of integrated technology

SYSTEMS mode allows you to immerse audiences with your story through IoT solutions and third-party technologies. With sensors, cameras, smart-building, queue management systems and more, you have the full integration capacity of HMP400 to deliver experiences with an unlimited degree of personalization.
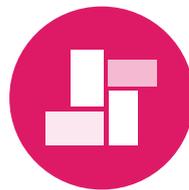

Key features

Streaming IPTV

Content broadcast support

LED

Custom resolutions

Video-wall

Frame synchronization

3rd Party IP technology

AMX™, Crestron™, Fire, Evacuation, ESII™, Q-Matic™ and more

OUR COMMITMENT TO SECURITY

DSOS™ by SpinetiX.
An Operating System Dedicated to Digital Signage

Security at the core

DSOS and Intel® technology together provide a one-stop, low-risk, secure platform for digital signage deployments of any size, and any high-availability scenarios.

Lean and easy to maintain

Designed to turn any qualified device into a dedicated signage appliance, DSOS is leaner and easier to maintain than general-purpose operating systems.

Support close to you

With more than 15 years of experience in hardened, secure devices and operating systems, our engineering team together with trained SpinetiX partners are close to you and speak your language.
